1	A. Yes. Since 1991, I believe I started
2	teaching at the police academy in 1991, and did so for
3	the next 20-plus years. Part of that experience was
4	taking a look at legal issues that are associated with
5	police work, and I was involved in helping develop
6	curriculum. I was involved in drafting exams for
7	students to take as part of the process of being able
8	to go through the academy to show proficiency.
9	And then I spent years, and within that,

And then I spent years, and within that, teaching students all kind of legal classes associated with issues in police work, whether it be liability, or search and seizure, or report writing, everything that sort of entailed in the legal aspect of being a police officer.

That included use of force classes. There were several use of force classes that cadets had to take in order to go through the curriculum. And it specifically looked at legal issues with respect to the use of force. What the case law and the constitutional statutes say about the use of force, problems, potential problems, in using certain kind of force, sort of that whole thing.

**Q.** And if you look down a couple of para -- or a couple of lines after that sentence that we just looked at, it says that "We discussed the

constitutional issues and the case law that gives guidance as to how to use" -- "how the use of force would be viewed by courts and juries to determine if it was reasonable."

Is this what you were talking about, the training that you provided to the police academy?

A. It is.

Q. Okay.

A. I also, within the police academy sphere, I also taught for years in the advanced officer portion. This is officers who have graduated in -- from the academy, become police officers, they've typically been in the field for five, ten, fifteen years. They have mandatory training they have to perform every year to keep certified. And part of that training was a use of force aspect of their curriculum, and I taught that. It's called the "advanced officer course," and I taught that for the police academy for many years.

**Q.** Let's talk about not the advanced training, but the training that you would provide to cadets.

A. Okay.

**Q.** Again, according to your experience here that you've listed in your report, you said that you taught this for 23 years; is that correct?

A. Correct.

Q. Okay.

A. -- end of 2014.

Q. And you would agree with me that during
that period of time that cadets are taught -- or were
taught those things that you lay out in that sentence,
correct?

12 A. Correct.

Q. For example, when you were instructing the
academy -- and you would agree with me that you were
instructing the academy when Officer Patterson actually
went through the academy, true?

A. Probably true, yes.

18 Q. And so you would agree that he would have19 been trained regarding the constitutional requirements20 regarding the use of force in the academy?

A. There was a class that specifically focused on that, yes.

Q. So in that class that specifically focused
on that, you would agree that he received training
regarding those constitutional requirements, true?

23

Intermountain Court Reporters 801.263.1396

A. I don't know if I could guarantee it, if I
didn't do it, but it certainly -- it certainly was a
course that was required for each cadet to take, and so
I would assume, yes.

Q. And you would agree that during that time,
he would have also been taught about statutory
requirements regarding the use of force, true?

A. True.

Q. And you would agree that he would have
learned about the case law that gives guidance
regarding the use of force?

A. Yes.

Q. And you would agree that he would have beentaught how courts view the use of force and whetherit's reasonable or not?

A. True.

17 Q. And you would agree that he would have
18 received instructions on how juries view the use of
19 force and whether it's reasonable or not?

A. True.

Q. And so he would have been trained what useof force was reasonable in the academy, true?

A. He would have been trained on the concepts of what the standard was and particularly how juries and courts looked at how an officer does or does not

- 1 Q. But, again, during that period of time, 2 again, same questions that I asked with respect to your 3 time at the Utah attorney general's office. Do you 4 have any recollection of actually physically making, 5 you personally, making any changes to the use of force 6 policy?
  - I -- I -- I would guarantee you that that happened at Adult Probation & Parole. If those changes were sitting down with somebody and saving, "This doesn't look right or this needs to be changed," those discussions happened all the time.
  - Q. Okay. With respect to the use of force policy at the AG's office, again, you've been critical of the use of force policy with respect to Draper City that was in place in 2010, correct?

### A. Correct.

- Q. And with respect to your rebuttal report, and we haven't looked at that yet, and we can mark it as an exhibit, if you need to, but you also opined about something that Mr. Wallentine talked about in his report, where he talked about the chiefs' association getting together and making changes to use of force policies throughout the state. Do you remember that?
  - A.
  - Q. And do you recall earlier, when you were

- talking about the use of force policy at the attorney general's office, you said that you had some recollection of Ken Wallentine talking to you about the 4 need to change policies in kind of a nationwide change with respect to use of force policy?
  - I don't know if it was nationwide, but I do recall the whole discussion. There were a number of issues. It wasn't just use of force. There were a number of critical law enforcement issues that we were trying to engage in with the sheriffs' association or the chiefs' association. And I -- yeah, I recall those discussions about the need to -- to look at improving what was in place.
  - Okay. I want to talk specifically, though, about the use of force policy, and let me just cut to the chase here. In 2010, it's true that the use of force policy at the attorney general's office was almost identical to the use of force policy in Draper City?

## A. I don't know that. I know that your expert has said that. I have not independently verified that.

Okay. You wouldn't be here today telling me that the use of force policy, where you were the division chief or the chief deputy, and the buck at least came to your desk as one of the higher-ups in

- 2 If, in fact, the policy at the attorney general's office in 2010 was similar to the one in 3 4 Draper, I would say that that policy was inadequate.
- 5 And if that's the fact, that's the fact.
- 6 Q. And let's not -- let's not quibble about 7 terms, but language is important, and so I want to talk 8 specifically about whether it was constitutional or 9 unconstitutional. Would you say that that policy was 10 unconstitutional in 2010 at the AG's office, where you 11 were in charge, if it was indeed identical to Draper 12 Citv's?
- 13 A. If it -- the problem with the policy is 14 that it is so bare bones, and it is so -- it states the 15 conclusion that force has to be reasonable. And in my 16 many years of experience, that is not sufficient to 17 guide somebody in what it means, how to comport 18 yourself with it. If that was true and that's what the 19 AG policy said, I think it was lacking in giving the 20 direction and the guidance to officers in the AG's 21 office of what was expected of them, and if that's the 22 way it was, then that's the way it was.
- 23 But you would agree with me that in 2010, 24 that the Draper City policy, and again, if -- if the
- 25 AG's office policy was similar or identical to it, did

  - Α. It was a correct statement of the law.
- 7 Q. Okay. And not only was it a correct 8 statement of state law, but that state statute and 9 federal law were consistent with respect to use of 10 force, true?

## A. I don't understand.

13 report here, if you flip over to the next page, you can 14 look at the exact language, second full paragraph 15 underneath your opinions, the language you used there 16 is that "The 2010 use of force policy in place at the
